BRAINSTORM:

PRACTICAL NOTE: You can camp and eat for the same amount as you would eating at home. Yes, it is possible to stay within your weekly food budget. It is super easy to overspend on a weekend camping trip and come home with a lot of food you didn't eat. All too often we get excited when going on a trip and the impulse buys add up quickly.

Think about it - if you stay within your weekly food budget then your Adventure Budget just increased.
